The Zoom link is:

<https://zoom.us/j/98736897490>

Meeting ID: 987 3689 7490

Passcode: 001960

Open Research Institute (ORI) is a non-profit research and development organization that provides all of its work to the general public under the principles of Open Source and Open Access to Research. We do technical and regulatory work for amateur radio, satellite and terrestrial, and a few other fields.

In this talk, Michelle, W5NYV, will describe exciting ORI projects and events, give an up-to-the-minute status report, and do a live demo of part of a digital microwave amateur spacecraft downlink.

Bonus - this part of the project will also serve as a terrestrial microwave multimedia beacon!

We have plenty going on and you can be part of it. You do not have to be an expert to participate. You just have to be willing to become more of one along the way.

Find out more about ORI at <https://openresearch.institute>

President's Report

Fellow HAMs, much fun was had at the In-Person Auction! As much as we would like to continue in-person events, we are going back to virtual for the November meeting. See above for the topic description and Zoom link.

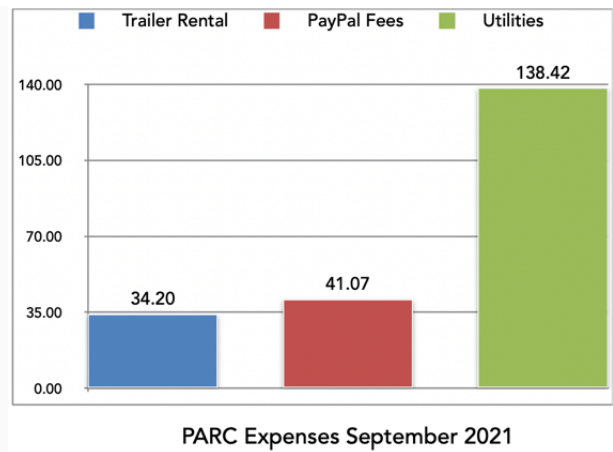

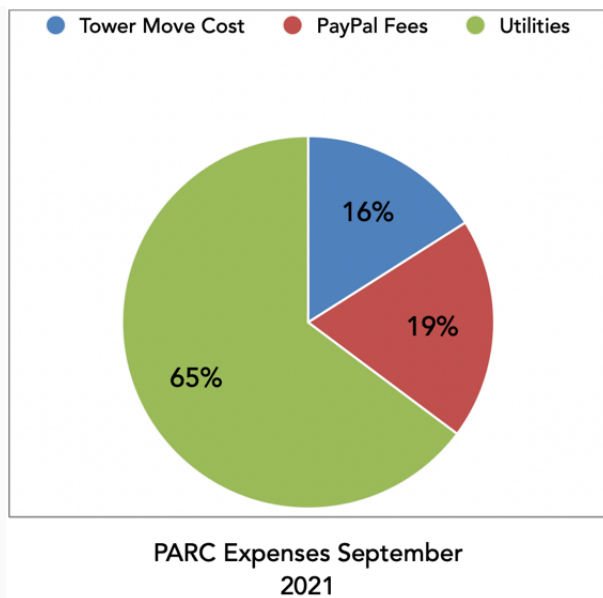

At this time, we are planning to hold the December meeting and social IN PERSON, but at the same place, we held the auction (due to the larger, better-ventilated space). Don't worry, it is right across the street from the "normal" meeting location. Unless something changes drastically with guidelines before December, we will plan on that. The other important thing we do at the December meeting is to vote on club business. We have a slate for your 2022 Board consisting of many of the current members, the official announcement will be on Wednesday!

We are still working to get more activity on our repeaters, specifically, we are hoping to get C4FM activity. Look for more information about upcoming on-the-air events to promote keeping your radios tuned (and charged, if HT), and making sure everyone knows how to use them.

Lots more information to come, at the November meeting!

Financial Report

Your Board of Directors

Call Sign	Name	Position
K6JPE	Joe	President
NN3V	Charlie	Vice-President
